Range of Modular Switches

REO SWITCHES KEY Features

360° ROTATION* FOR BREAK-FREE OPERATIONS

When you recommend REO switches, your customers get to enjoy the comfort of a fan without the hassle of a breakage-prone regulator. The 360° rotation regulator knob is built and designed for break-free operations.

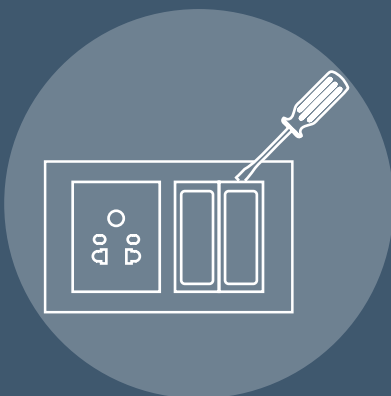

1 LAKH + CLICKS & 10000 TIMES SOCKET UNPLUGGING

Your customers will only compliment you when the switch you install lasts really long. REO switches offer more than 1 Lakh clicks. What's more, you can plug sockets in and out over 10000 times.

2 Ampere USB CHARGING*

No need to wait any longer to charge your devices. With USB type A charging solutions you can charge your devices faster and safer

Front Loading & Removal Front Plates*

REO switches reduce the time taken for every switch installation, thereby helping you finish the job quicker. These Switches come with Front Loading and Removal Options to make the Installation Process Quicker and Easier for you.

Confirms IP20

REO Switches Protect from touch by fingers and objects greater than 12 millimeters

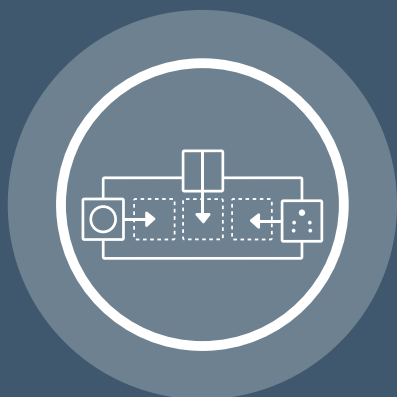

HASSLE-FREE PLUGGING

When you choose REO switches, your customers can be rest assured about the safety of their children due to it's in-built safety shutter in sockets. More safety is sure to earn you more compliments.

ISI & BIS Certified

The mark certifies that our switches conforms to an Indian standard (IS) developed by the Bureau of Indian Standards (BIS), the national standards body of India.

SMART Connectors*

Complete Connection solution for TV, computers, projectors etc.

*Mentioned feature may vary with product

REO WIRE

Domestic Cables

REO WIRE KEY Features

Domestic Cables

FLAME RETARDANT PVC INSULATED CABLE

About FR

Electrical wires are being used as electrical path for Industrial and household power applications. In general, excessive voltage drops/ fluctuation in service line results lower voltage at receiving end .Due to this lower voltage, current drawn and passing through the electric wires are higher than normal resulting higher temperature rise in the conductor. As such normal wires can not sustain with such system abnormalities and may leads to risk of short circuit and serious fire hazards. To fight with such conditions, REO-FR wires have been developed with special technology which is rated for higher current carrying capacity with Energy saving, extra safety and longer life can sustain with high temperature rise even worst condition of overloading.

Insulation

- “A” grade PVC compound & Raisin
- Excellent Electric properties High Grade Copper (From HINDALCO & STERLITE)
- Flame Retardant
- Heat Resistant
- Abrasion Resistant
- The excellent mechanical features and outstanding resistance to moisture, acids & alkalis, improves the protection against external effects and adverse environmental influences

ENERGY CONSUMPTION

Domestic Sector accounts 30% of total energy consumption in the country REO uses high grade of copper to manufacture wires & cables with more than 101% conductivity. Having higher conductivity of conductor accounts for 2% to 3% electricity bill saving during application and give protection against voltage fluctuation.

COPPER CONDUCTIVITY

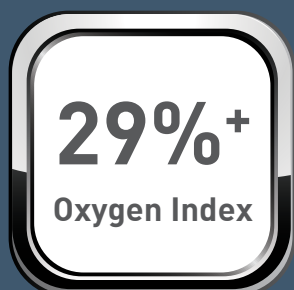

REO FR PVC wire use ETP grade annealed copper which is more than 99.95% pure and therefore ensures 101% conductivity (IACS)

FLAME RETARDENT

In commercial and public buildings where regulations are often very strict, it is important to use flame-retardant materials. Flame retardant material is one that is designed to resist the fire and withstand heat.

REO FR PVC compound ensures additional safety by restricting the spread of fire even at very high temperature.

The FR properties as per IS 694:2010 means extra protection against electric shocks, short-circuit and fires.

OXYGEN INDEX

REO FR PVC Compound ensures additional safety against the fires because of its high Oxygen index and temperature index.

Higher the index value, greater the non-combustibility

REO FR PVC wire has oxygen index of 29%.

Flame Retardent PVC Insulated Cable (Unsheathed) Flexible Cables, 1100 Volt

...Fill the colour code i.e. B = Blue B / K = Black K etc...

Note: Conductor as per class V of IS 8130 confirming to IS 694.

*The number and diameter of conductor strands are for reference only. Conductor resistance as per IS 8130 is the governing criteria. Progressive sequential length marking on every metre.

Construction :-

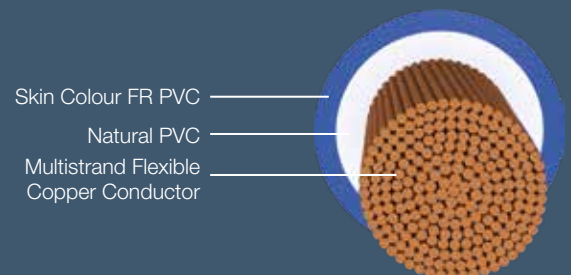

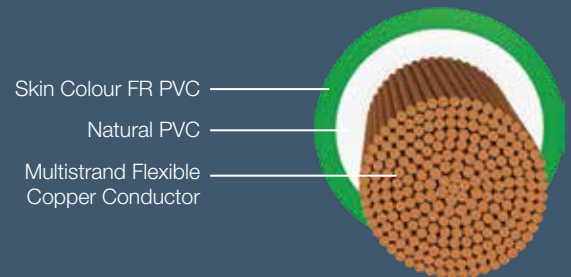

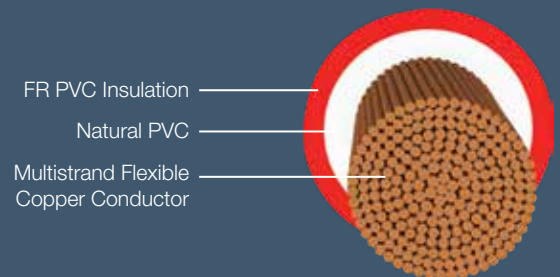

Conductor : Plain annealed copper conductor as per IS 8130

Insulation : Primary - Natural FR PVC

Secondary - Skin colour coated PVC with FR property

Colour : Red/Yellow/Blue/Black/Green

Any other colour on specific request can also be supplied subject to economical run.

Three Core Flat PVC Insulated Copper Conductor Cable for Submersible use, 1100 Volt

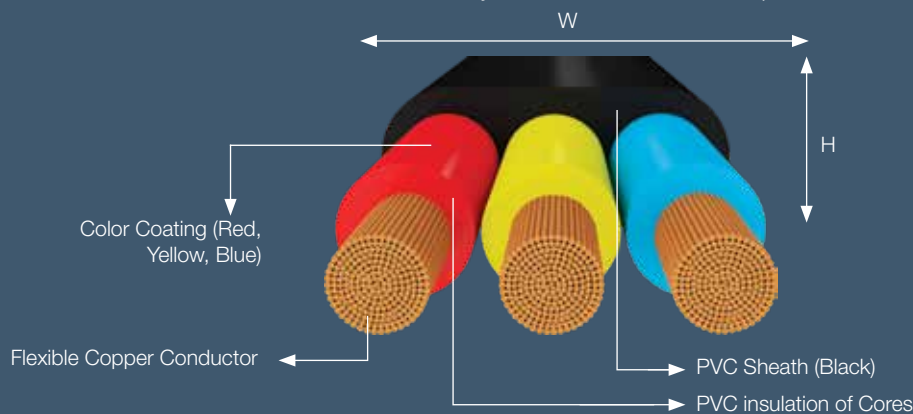

A submersible Pump cable is a specialized product to be used for submersible pumps in a deep well. The area of installation is physically restrictive, and the environment is very hostile. REO three core submersible flat cable is manufactured for use in underground, under-water or on wet surface.

- Features of REO 3 Core Submersible Flat Cable
- Outer sheath consists of highly abrasion resistant PVC compound impervious to grease, oil and water etc
- Good insulation properties when submerged in water
- Excellent mechanical & electrical properties.
- Progressive sequential length marking on every metre.

Telephone Switch Board Cable

APPLICATION

Cables used for Indoor Telephones, Telephone Exchanges, Industrial Plant Communication Systems, EPBAX Systems, Closed Circuit Security Systems, In-House Telephone wiring and various other equipments involving telephones.

STANDARD

Cables are made as per TEC Specification No. G/WIR-06/03 or as per customer specification.

CONSTRUCTION

Solid annealed tinned copper conductor, PVC insulated cores suitably colour coded for distinct identification, twisted to form pairs, pairs laid up, PVC sheathed.

DESIGN / MATERIAL

Conductor	: Tinned copper
Insulation	: PVC
Shielding	: Overall shielded with polyester tape
Sheathing	: FR PVC
Conductor size Cable	: 0.4 mm
Configuration	: 2P, 4P

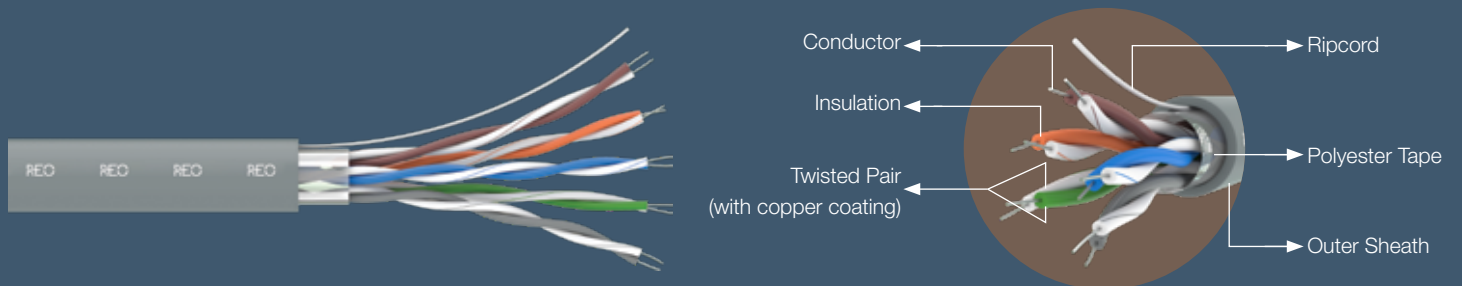

Note: Telephone Cable can also be made available with bare copper, polyethylene insulation FR-LSH/polyethylene sheathing & conductor sizes of 0.5 mm/ 0.6 mm on request.

SALIENT FEATURES FOR TELEPHONE CABLE

- Hard grade PVC insulation is used for long life and stable properties of cables.
- Staggered lays of twisted pairs are used to ensure minimum cross talk.
- Sizing and processing of conductor and insulated cores is done in precisely controlled manner on automatic modern machines to have optimum values of capacitance, capacitance unbalance, image and cross talk attenuation and characteristic impedance.
- Shielding is done to protect from outside / inter pair interference as per specific needs.

PROSPECTIVE BUYERS

BSNL, C.DOT, Switching equipment manufacturers, every industrial and commercial establishment, construction industry.

No. of Pairs	UNARMoured 0.4 mm ATC
2 pair	WRTTATEA2P40
4 pair	WRTTATEA4P40

Co-Axial TV Cables

APPLICATION

Used in cable TV operations, Computer net-working etc.

CONSTRUCTION

Solid annealed bare copper conductor polyethylene insulated shielded with polyester backed aluminium tape and additional shielding with fine aluminium braid protected with polyester tape wrapping and sheathed with PVC.

REO MCB KEY Features

SAFETY REDEFINED

Finger proof terminals eliminate chances of accidental contact with live parts. You can install, operate and maintain REO MCB with total confidence.

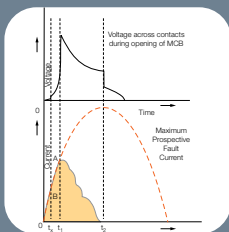

NON-WELDING CONTACTS

Silver Graphite contacts in REO MCB provides safety against contact welding due to its superior anti-welding properties enhancing safety and life of the system

SAFETY MEETS SUPERIOR AESTHETICS

Appropriately designed, profiled for superior cooling, and manufactured with fire-retardant material, REO offers you safety combined with quality

ENERGY LIMITING CLASS - 3

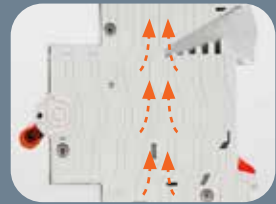

In case of fault, the quick arc quenching mechanism operates and extinguishes the arc rapidly, thus ensuring lowest possible energy flow through the circuit.

This minimizes risk of fire and maximizes life of your equipment.

3

INNOVATIVELY PROFILED BREATHING CHANNELS

When two or more poles are placed adjacent to each other, the breathing channels are so profiled that the air circulates resulting in cooler operation, year after year.

COMBIHEAD SCREW

REO MCB is provided with combi head screws, allow you to use standard as well as Philips screw drivers.

Dual Termination

The terminals are designed to offer convenience of connecting both cable and bus bar at incomer side. REO terminals offer simple termination flexibly

Superior Arc Quenching Arrangement

Better Arc plates arrangement ensure faster quenching and minimal spreading of carbon fumes inside the MCB.

*Mentioned feature may vary with product

MCB

(In accordance with IS/IEC 60898-1) 240 V / 415 V, 50 Hz, 6 kA Suitable for Motor and other Inductive loads.

REO FANS

WITH COPPER WIRE WINDING MOTOR
FOR BETTER PERFORMANCE

KEY Features

LOW POWER CONSUMPTION (WATTS)

REO Star Rated fan is designed for high performance at low power consumption.

HIGH AIR DELIVERY

Reo Fans comes with High lift and Bend angle, that provide better air circulation throughout the room.

STRONG & POWERFUL 100% COPPER MOTOR

Usage of Powerful Copper Motor can significantly improve the efficiency, Durability and longevity of Fan

HIGH SPEED

Strong and Powerful Copper motor ensure excellent performance and Adequate RPM at Rated Voltage

DOUBLE BALL BEARING

High-quality double ball bearings are designed to withstand long-term usage and low noise level during operation.

Warranty

Havells India Ltd. ("Company") hereby warrants these products, against manufacturing defects, commencing from the date of purchase invoice for the period as specified in the table below :-

S. No.	Product	Warranty Period
1	Mechanical Modules - Switches, all type of sockets in white & PC White Cover plates.	10 Year
2	Electronic Modules -Fan regulator, Dimmer, Telephone sockets, Computer sockets, USB Chargers, Data Socket (HDMI, VGA, HD15, USB Data) & Indicator switches, Mechanical Modules-Switches & all types of Sockets in painted colors.	1 Year
3	Decorative plates (Glass, Metal and Wood), Painted Cover plates, PC plates with Chrome / Color finish & all modular SKUs with colour painted.	1 Year
4	*Extension Board (Powerstrip, Spikeguard, Flexbox), Door bell, Water bell, Adaptor.	6 Months

All above warranty is applicable when the devices are used in Reo metal flush boxes. Otherwise the warranty period will be reduced by 50%.

Warranty Terms and Conditions for products mentioned from S. No. 1 to 3

- To avail Warranty services, customer can log in his requests with the customer care cell and must present original invoice and wherever possible original Warranty Certificate (duly signed and stamped by the Selling Dealer) to the Authorised Service Representative.
- Company will repair or replace the product at its discretion, if any manufacturing defect is found in the product.
- Warranty of repaired or replaced product shall thereafter continue only for unexpired period of Warranty and defective product shall be property of Company or its Authorized Service Partner during Warranty period.
- Company will not be liable for any delay or failure in performance resulting from causes beyond its control including non-availability of any part, labour problem, restrictions and regulations of the government, public movement, war and any other unavoidable/unforeseen circumstances including any force majeure event, specially vis-à-vis the import of supplies and raw material.
- It is clarified that the Company will not be responsible to the customer for any economic loss, commercial loss, consequential or resulting liability, damage to the property or any other harm or loss.
- In the event of any unforeseeable circumstance same product or product with similar design is not available, product will be replaced with an equivalent model available at that time.

Warranty excludes or does not apply:

- If the product is serviced or repaired by any person other than the Authorized Service Representative of the Company.
- If customer violates Warranty Terms and Conditions, instruction and installation guidelines, recommendations of Authorised Service Representative and/or operates the product otherwise than as per product specifications.
- If the serial number affixed on the product is damaged, erased or tampered with or if product is refurbished/modified.
- If the product is operated in conditions otherwise than normal conditions (e.g., abnormal voltage surge, extreme environmental conditions etc.).
- Any harm caused due to accident, negligence, improper maintenance, mishandling, tampering, incurred in transit by the customer or which can be attributed to the fault of the customer.
- Any harm resulting from any unforeseeable circumstances such as force majeure event etc.
- Any harm caused due to any defect in any electrical/civil installation(s), wiring or third party products.
- If Company's mounting boxes have not been used to mount the plates and accessories.
