MODULATED FEATURES

- The unique Clip-lock, recessed Downlight module mounting ring is a new innovative design, enabling simple changeover to LED lights with any 50mm diameter lamp holder.
- Using sturdy spring clips, installation is simple. Commonly used 50mm diameter fittings (typically Mr 16) can be installed quickly into the rear of the mix.
- The unique design our fixture allows either 70mm or 90mm diameter cutout to be adopted with all four models.
- Providing a deep module fixture reduces glare significantly without reducing overall lighting performance with a uniform light spread.
- It is also the perfect solution for any new lighting installation.
