STYLISH FANS
FOR MODERN HOMES

Kühl Stylish Fans

Kühl FANS

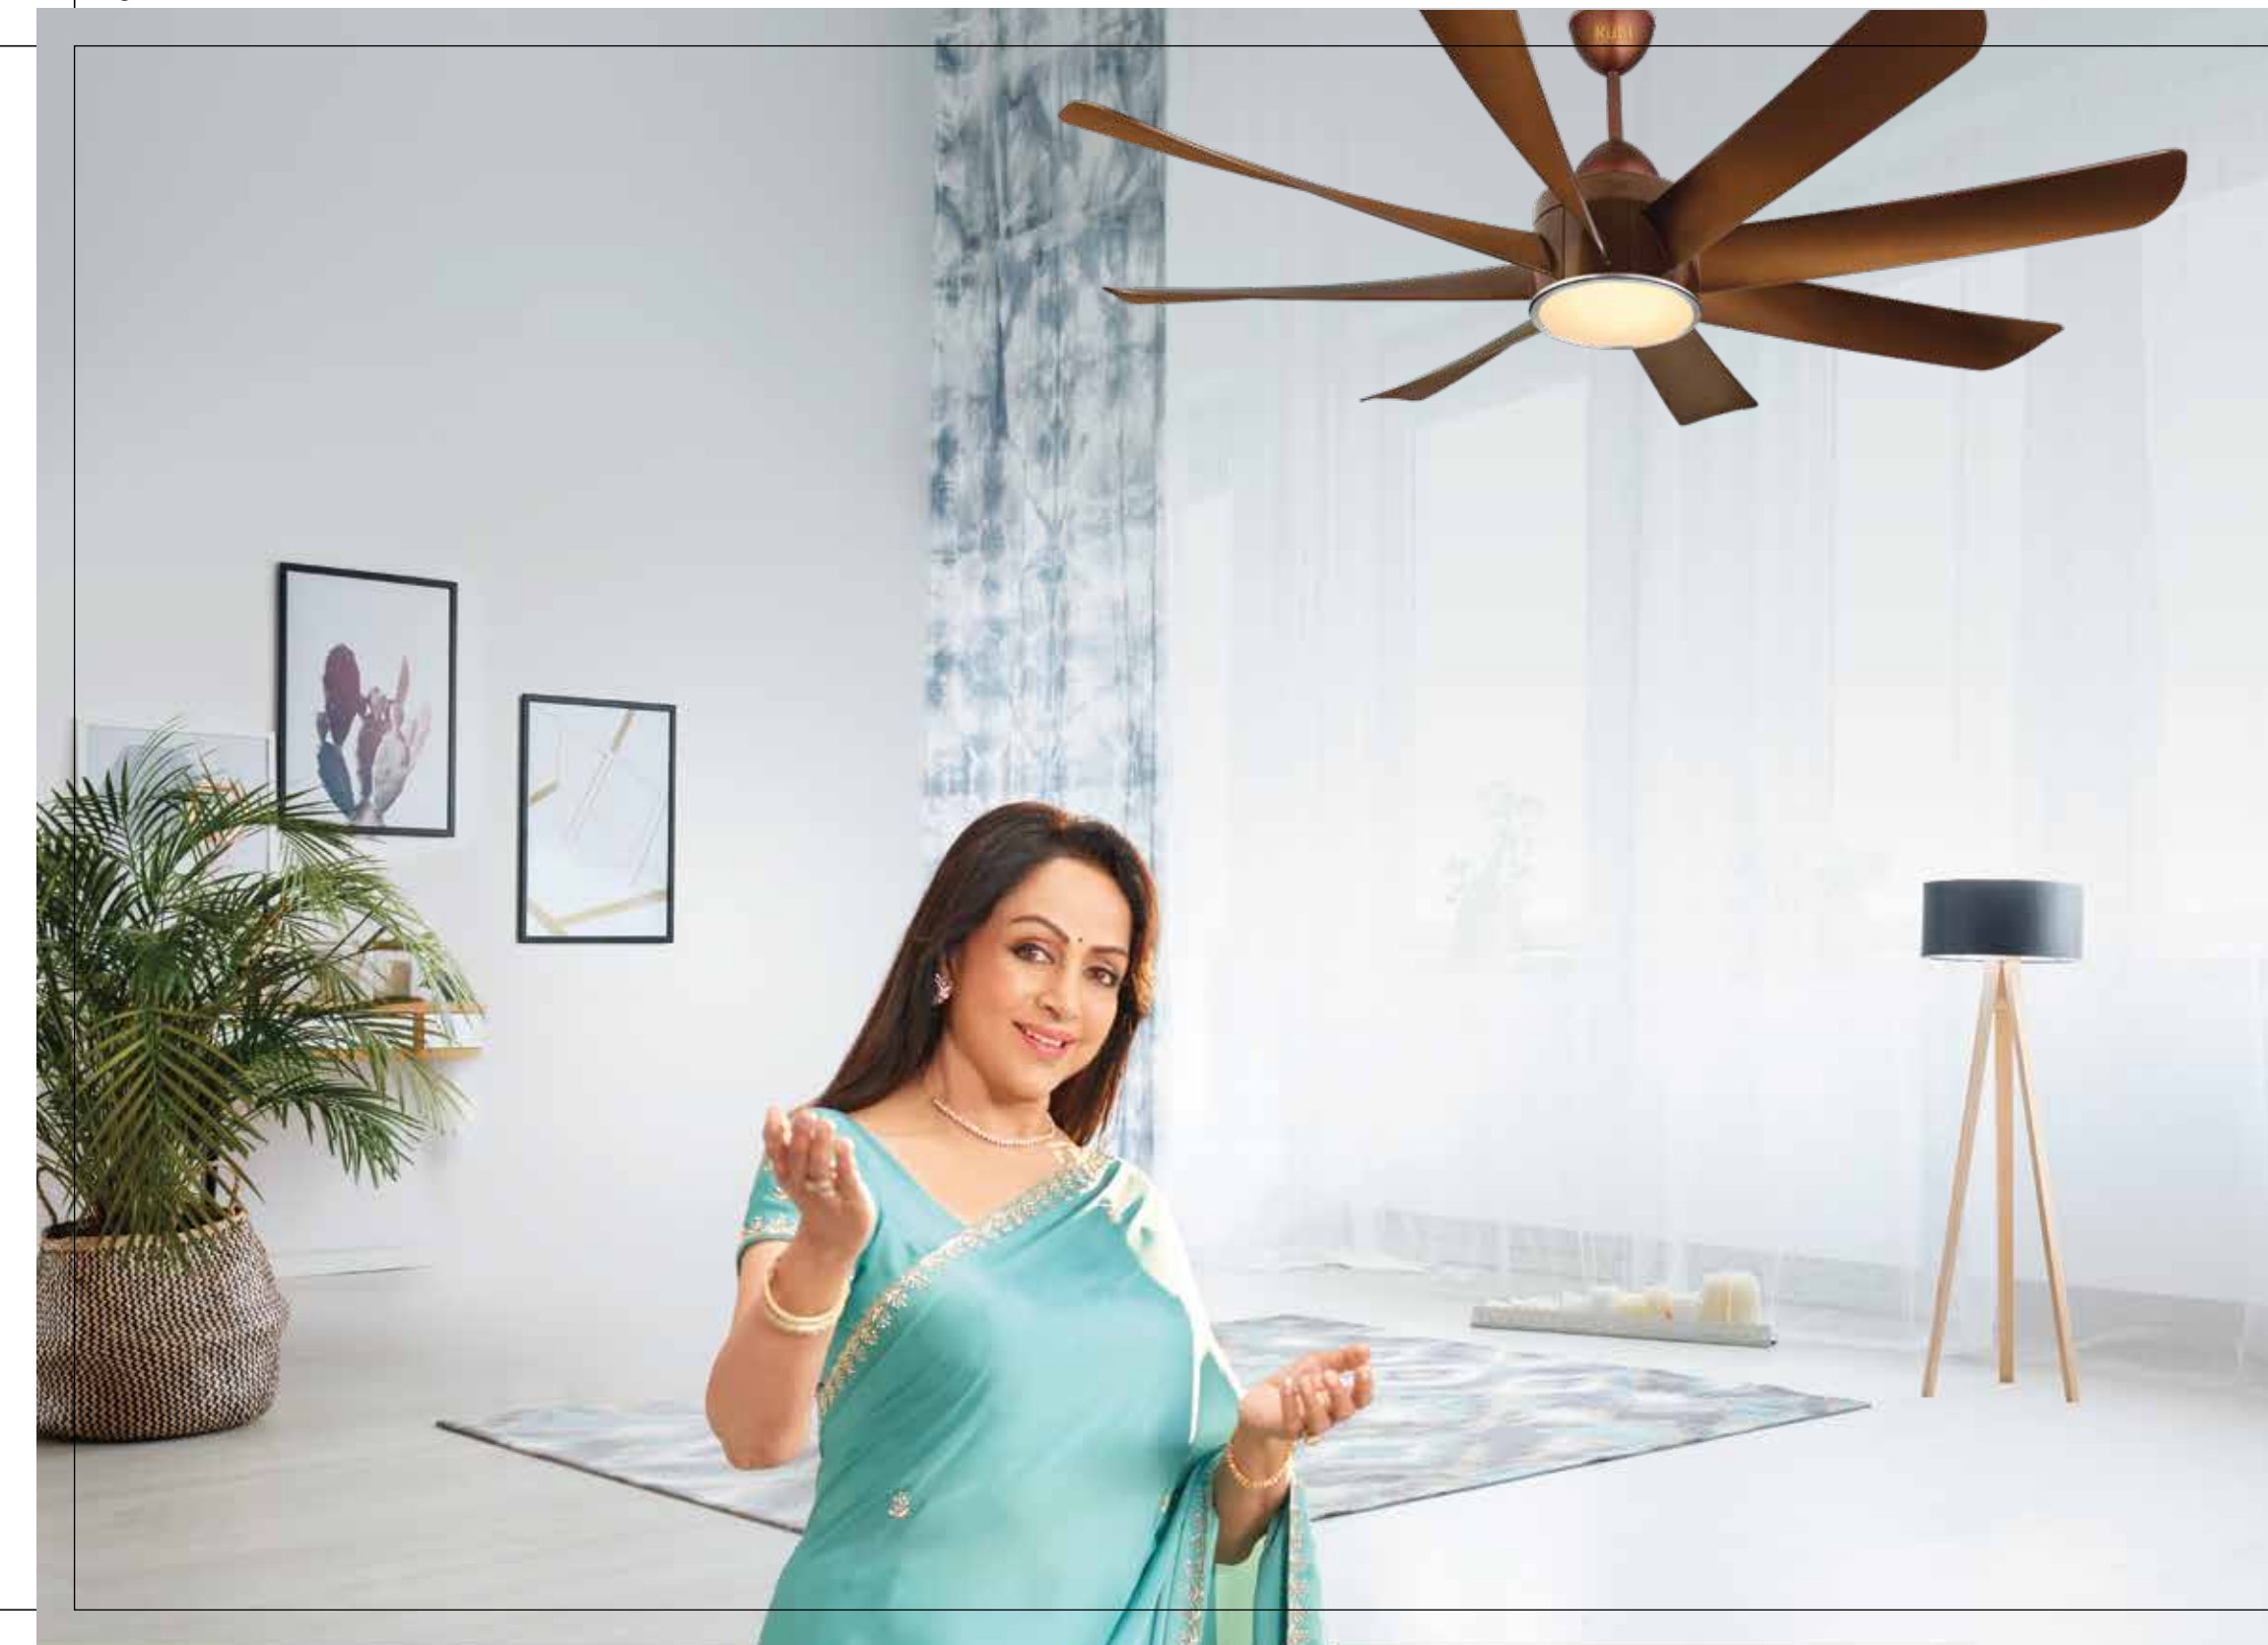

INTELLIGENCE WITH STYLE TO MATCH YOUR ELEGANT LIFESTYLE

Your home is a reflection of who you truly are. Elevate it to the next level with Kühl Stylish Fans.

Crafted to perfection at our state-of-the-art facility, each Kühl fan comes with 5-star BEE certification ensuring saving on your electricity bills and peace of mind with ISI quality certifications.

Through sophisticated colours, bound by flowy, finessed lines, and stunning details that echo the sense of style you exude. A captivating collection of fans that are elegant beyond compare.

Artfully sculpted to unparalleled perfection. Quietly powered by technologies that give them the cutting edge.

CUTTING-EDGE TECHNOLOGIES

STYLISH DESIGN TO MATCH YOUR LIFESTYLE

The Kühl BLDC fans are a perfect combination of Smart Inside and Stylish Outside. They are not only functional and efficient but they also come with a stylish appeal. The Kühl range of fans are designed with long aerodynamic blades, modelled on airplane foils for better air delivery. The range of colours and teak wood finish options enhance your home décor, giving every room a stylish edge.

What's more? The Kühl range of fans also comes with a down and night light that brightens up the room, and gives your home an aesthetic appeal. Along with smart features, and stylish modern technology, the Kühl fans also make your home look more glamorous!

FOR OUTSTANDING PERFORMANCE

AERODYNAMIC BLADE DESIGN

Kühl range of fans are stylishly designed to perfectly match your home interiors be it traditional or contemporary. Aerodynamic blades of ABS and aluminium give a stylish edge to the fans. The vibrant colours and beautiful designs have been very thoughtfully chosen, making the fan a masterpiece for every room.

BLDC TECHNOLOGY SAVES ELECTRICITY

BLDC stands for Brush Less Direct Current Technology. BLDC motor generate less heat and have a longer life span. Kühl BLDC fans consume only 24 Watts* power, at full speed, as compared to traditional induction fans that consume up to 80 Watts. Hence, they save up to 65% electricity. Capital Investment in changing these fans will be paid back with in 18-24 months from the savings.

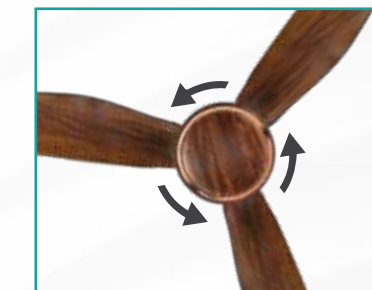

LOW RPM WITH HIGH FLOW RATE & LOW-NOISE

The Kühl range of fans operate at a lower RPM efficiently spreading air to every corner of your living space. Modern materials like ABS and aluminum, reduce friction and fan noise. The result? Low-noise air delivery that's sheer joy.

ALEXA / VOICE ENABLED & IOT BASED

The fans come equipped with smart features like voice enabled technology and voice commands through Alexa, adding convenience to your life. Other remote operation features include operation through Smartphones, Wi-Fi/IoT and remote control.

REVERSE MODE

Reverse function helps in bringing the warm air near the ceiling back to the lower half of the room. It's of great use in winter. You can also use the reverse function of your fan if your air conditioning vents are near the floor. In such a scenario, putting the fan into reverse can draw the cool air upwards and circulate it in the room so that you can really feel it. Thus helps in maximising the effectiveness of your AC.

PROUDLY MADE IN INDIA | Our Fans are 5- Star Rated by BEE as well as by BIS

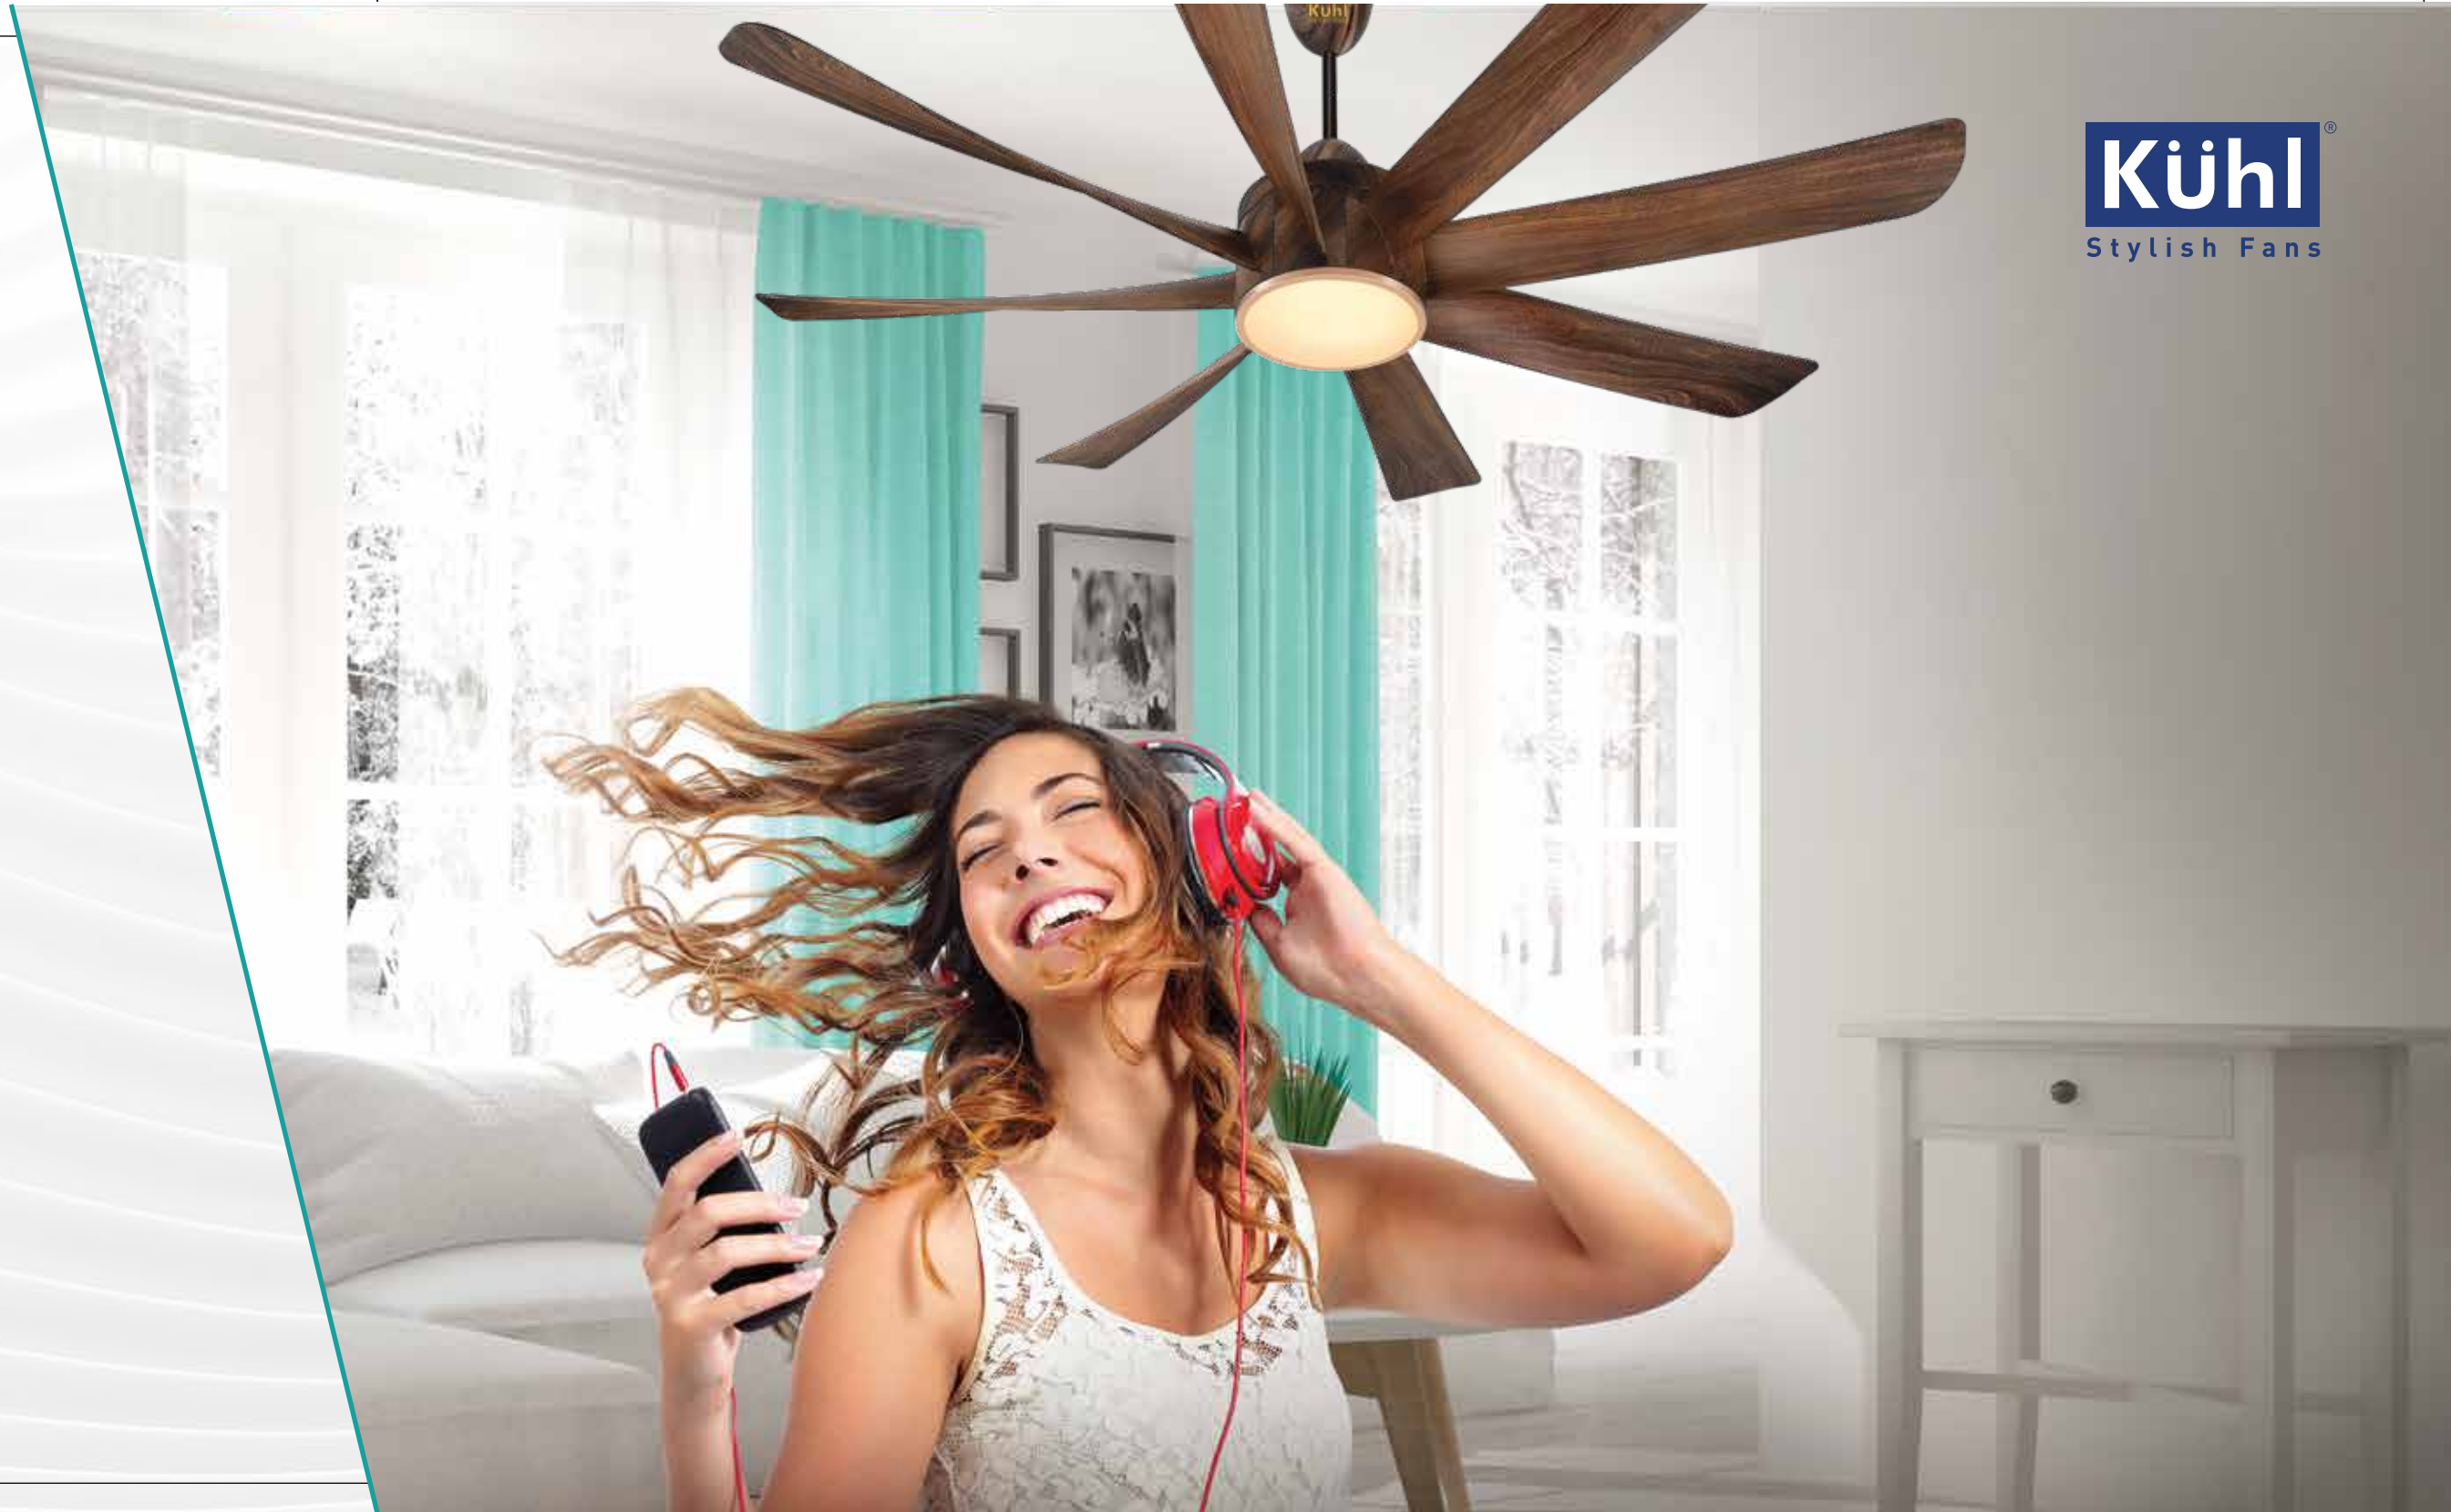

BEAUTIFUL YET POWERFUL

Kühl PLATIN SERIES

With our range of Kühl Platin Fans, we usher in refined style & comfort for your home. Add beauty to your ceilings with this touch of elegance. Built with efficient BLDC motors and aerodynamic technology, they can maintain a consistent speed throughout for the best air delivery. Smart features like Remote Operation, Smartphone, Wi-Fi/IoT and Alexa/Voice control enabled adds to your convenience and the down light sets the mood for a blissful experience. What's more? It keeps you warm during winter with its reverse mode circulating warm air to the lower half of the room efficiently.

NEXT GEN DESERT COOLER

Kühl EXZEL SERIES

Transform your home with the Kühl Exzel Desert Cooler, a fusion of style and innovation. This remote-controlled fan ensures remarkable electricity savings and operates quietly for a serene living environment. Its sleek design adds a touch of sophistication to any space while incorporating advanced features such as ultrasonic mist humidifier technology, eliminating water droplets for enhanced comfort. With ample water tank capacity, refills become less frequent, and intelligent additions like the digital speed display elevate convenience. Experience the perfect blend of style and functionality with the Kühl Exzel Desert Cooler, delivering indulgent comfort with every use.
